RE: University License

Dear Dr. Cheng:

This letter is in response to your request for the University of Kentucky to license some of your inventions to your company, Amchael Graphics, specifically, the inventions entitled:

‘Subdivision Surface Based Geometric Modeling System’ [US Patent # 7,200,532]

‘Subdivision Surface Evaluation Engine’

‘Subdivision Surface Interpolation Engine’.

The University of Kentucky will grant your company a license to these inventions conditional on the award of an SBIR grant or other federal grants for small business.

Please feel free to contact us should you have any other questions.

Sincerely,

Donald Keach
Director
